Serial No	
1.	From The Director of Industries and Commerce Letter no D 3 4611/W5 199 dt 29 32 Forwards for sanction a revised estimate according to Rs 46 153 7-0, for the execution of the water supply scheme to the Jeypore Town Enclosure of the distribution estimate In G.O. no Rev 4657-62/ml 2003C 3-1-1932 sanction was accorded to a revised estimate of Rs 52,835 towards the water supply scheme to Jeypore which included — a sum of Rs 11,000 towards the cost of distribution of water in the town or Rs 41,83 excluding the transportation estimate The distribution work has to be executed by the Sanitary Engineer Rockefeller Foundation and the other estimate has to be worked out by the Director of Industries and Commerce The Director now explains that in the course of execution some extra works were found necessary and the estimate has gone a little high From the ml head of Jeypore town a provision of Rs 5000/- has been made towards the estimate - The Director requests sanction to the revised estimate of Rs 46,153-7-0 as finally revised The grant quota will be raised by Rs 2,20 Pending the receipt of proposals for distribution of funds under water supply to Towns from the Sanitary Engineer the estimate may therefore be sanctioned
V	

Secret File No 143 of 1923 | General and Revenue Secretariat

As regards the question of working available
a sum of Rs 23,061 for payment to the
several offices and suppliers referred to in the
Director's letter the claims of Messrs Burgess &
Rand Ltd may perhaps be settled out of the
grant of Rs 9,209 provided for Minor Irrigation
works and Tanks in the Budget for 1923-24
but the amount at hand with the Director does not appear to be
sufficient to settle the claims of Messrs Burgess & Rand Ltd
works which amount to Rs 9,311, this year
perhaps would be necessary. The other claims
amounting to Rs 4,000 may perhaps be met out of the provision made in the Revised Budget
as well claims seem to be rather urgent
submitted for orders

OFFICE OF THE DIRECTOR

VERY URGENT *Dated Bangalore* 27th August *1932*
2nd Sep

FROM

N RAMA RAO Esq BA BL
Director of Industries and Commerce in Mysore
Bangalore (India)

To

R RANGA RAO, ESQ , B A , B L ,
Secretary to the Government of Mysore,
General Department,
Bangalore

GENERAL SECRETARY 2-9-32 No

SIR,

5524/31

TIPTUR WATER SUPPLY SCHEME

In continuation of my letter of even No dated 23-8-1932 requesting that the Government grant of Rs 9,750/- may be made available to enable us to pay off Messrs Ingersoll Rand (India)Ltd , being the balance of amount of their bill for Rs 19,750/-, I have the honour to submit herewith for favour of sanction by Government a revised estimate of cost of execution of the Water Supply Scheme amounting to Rs 46,153-7-0 against the sanctioned estimate of Rs 41,835/- exclusive of Rs 11,000/- reserved for the distribution The excess in the estimate is explained by the Industrial Engineer in his Memo dated 12-8-1932 copy of which is enclosed for the information of Government Most of the excess items are in the nature of additional works that were found necessary in the course of execution and which could not be left over

The President, Town Municipal Council, Tiptur, was informed of this increase in the estimate as early as April 1932 and he was requested to provide a sum of Rs 5,000/- in the Budget Estimate of the Municipality for 1932-33 vide my letter dated 12-4-1932 (copy enclosed for reference) Government have approved of the provision of this sum in their Order No L 1371-4/ML 221-31-15 dated 19/23-8-1932.

I have the honour to request you to kindly obtain the sanction of Government to the revised estimate As the suppliers and the contractors have to be paid for for the supplies and services at least this year, I request that the estimated amount may kindly be directed to be placed at my disposal early for payment as detailed below -

Messrs Ingersoll Rand, Ltd	Rs9,750/-	to be paid immediately
Mysore Iron Works	Rs5,311/-	
C I Workshop	Rs4,000/-	
Sundry suppliers	Rs2,000/-	-Do-
Labour etc , cash required	Rs2,000/-	-Do-
	Rs23,061/-	

I have the honour to be,
Sir,
Your most obedient servant,

A Ramma Rao

DIRECTOR

BV4

Copy of letter No D3-461/29-30 dated 12-4-1932 from the Director of Industries and Commerce in Lysore, Bangalore, to the President, Town Municipal Council, Tiptur

With reference to your letter No 656/31-32 dated the 28th March 1932, I have the honour to state that due to minor alterations and additions the cost of the scheme may go beyond the estimate of Rs. 52,835/- by about 10% The Municipality has so far sent Rs 15,000/- and will have to pay Rs 11,000/- to the Sanitary Divisio the balance of quota viz , Rs. 418/- and the grant sanctioned by Government viz , Rs. 8000/- has to be paid to me immediately to enable me to pay the suppliers' Bills on receipt of articles as per our agreement with them-

The estimate of Rs 52,835/- may vary by about 10% due to additions and alterations made in the lay out of the power house,pipe line etc , This sum of Rs 5,000/- may be provided for in the estimate for 1932-33

The running expenses may amount to Rs 400/- a month or Rs 5,000/-per annum This amount may also be provided for in the Budget

---

'Copy'

For Director

SUBMITTED TO THE DIRECTOR OF INDUSTRIES & COMMERCE, IN MYSORE,

BANGALORE

I herewith submit a revised estimate for the Tiptur water-Supply schme amounting to Rs 46,153-7-0 against the sanctioned estimate of Rs 41,835-0-0 excluding the estimate of Rs 11,000/- for the distribution

The increase in the estimate is explained as follows -

I MACHINERY Rs 250/- As the diameter of the centrifeugal pump is very small, it is necessary to provide a jockey pulley to hold the belt tight and in position this costs Rs 100/- The power connections have to be painted black and red to distinguish the pipe lines and that they may not rust The central reservoir has to be painted with special non-corrosive solution to avoid corrosion inside and outside The cost for which is estimated at Rs 150/-

II SEPARATION TANKS Rs 252-4-0 The amount provided for, was for 2' square tanks As it was necessary to provide 4' cube tanks for all the 4 borewells, the cost exceeded by Rs 252-4-0

III POWER HOUSE Rs 475/- The increase is due to the addition of a store-room and tool racks for keeping the necessary tools The wood-work of the power house has to be painted The total estimate is about Rs 475/-

IV COOLING TANK Rs 28/- This slight increase is due to the adoption of a steel tank and mounting it on a tripod in place of masonry tank originally estimated for

V FOUNDATIONS Rs 718-2-3 Original estimate of Rs 175/- was only for the machinery and the foundations necessary for the 5 stagings to carry tanks was left out The difference is due to the materials and constructions required for the heavy foundations of the central tank (of 24,000 gallons capacity) and 4 small tanks It was found after consulting with the Sanitary Engineer that suitable foundations should be provided for the stagings

VI STAGINGS Rs 193-0-0 This is due to the fact that a ladder had to be installed and supported with extra side bracing and the staging has to be painted for protection against rust

VII G I PIPES Rs 1136-3-0 This amount represents savings under this head

VIII G I PIPES AND AIR LINES Rs 169-15-0 This excess is purely on account of painting work to be done which was found necessary on local inspection

IX FREIGHT Excess Rs 30-12-0 only

X ENGINEERS AND DRIVER'S PAY Rs 370-8-0 Provision was made to meet the Engineer's pay for one month, Rs ~~11,000~~/- and Rs 600/- for the Driver for 3 months Later it was decided on the recommendation of the Sanitary Engineer to provide a roof for the reservoirs at a cost of Rs 920-8-0 Now we have made provision of Rs 600/- for the Driver Rs.550/- for the Engineer for 15 days as Ingersoll Rand have for one week's free service only. It is not known yet what Rs~~550~~/- will be spent.

XI S U M P Rs 214-8-0 A sum of Rs 214-8- has been saved on this

XII SUMP COVER Rs 100/- A special cover is now designed Hence this small excess This covers was not provided for at first The Sanitary Engineer desires to have it

XIII LABOUR Rs 1910-11-9 This excess is mainly due to the following - Originally it was proposed to imbed the pipes in the tank bed but Messers Ingersoll Rand Ltd , and the Sanitary Engineer advised later that it w should be carried on pillars for safety against settlement in the loose tank bed and inspection at all times The cost of stones and cutting charges have been included in this This has largely increased the estimate Four protection boxes at a cost of Rs 450/- had to be provided for the Thomas Control valves to protect them from interference This was not provided for as it was not foreseen at first The local unskilled labour is another factor for the increase in the estimate

XIV CAULKING Rs 112-12-0 As extra caulking was necessary due to the above facts

XV POWER HOUSE CONSTRUCTION Rs 448-5-0 This excess is due to the many improvements effected to ensure better service and control Special valves at a cost of about Rs 400/- were purchased in addition to the other requirements

XVI TOOLS Rs 109-12-0 Small tools which are necessary at the power house was purchased This will be the property of the Municipality

XVII CONTINGENCIES As some slight changes and readjustments will be made at the time of trial run of seven days or subsequently to be held this month, a sum of Rs 500/- is provided against this

It will be seen that the original estimates have been exceeded only due to additional works which were not foreseen at the time of estimating and which were subsequently found to be quite necessary in the interest of work

I, therefore, request that Government may kindly be moved to sanction the revised estimate and to place us with the funds Messers Ingersoll Rand (Coy) should have been paid the balance of Rs 9,750/- in July only as per our agreement As we have spent away the amount we had, Government will have to sanction the payment immediately

Government Order No L 4857-62/M1 200-30-13 dated 7th January 1932 sanctioning a revised estimate amounting to Rs.52,835/- for the scheme of water supply to Tiptur Town inclusive of the distributive portion thereof costing approximately Rs 11,000/-

2. Letter No.D 3-461/W S 29-30 dated 2nd September 1932 from the Director of Industries and Commerce in Mysore forwarding a revised estimate for the scheme amounting to Rs 46,153-7-0 against the sanctioned estimate of Rs 41,835/- exclusive of the estimate of Rs 11,000/- for the distribution portion and stating that the additional items in the estimate were found necessary in the course of execution and could not be left over and that the excess amount of Rs 5000/- has been provided in the budget estimates of the Tiptur Town Municipal Council

---

Order No L2103-8 /me 143-32-2

Dated Bangalore, the 14th September 1932

The revised estimate amounting to Rs.46,153-7-0 exclusive of the estimate for the distribution scheme is sanctioned, the excess amount being met out of the municipal fund pending adjustment of the Government contribution in due course

2 Separate instructions have issued in regard to the payment of a Government grant of Rs 9,750/- for the water supply scheme for this year

3 The Deputy Commissioner is requested to submit for record in the Secretariat the resolution of the Municipal Council approving of the revised estimate
